Principal’s Report

Dear Parents, Students and Staff

We expect some events in the College to generate a great sense of enthusiasm and excitement. Events such as the School Production, Artsfest, Bali Week, Sports Carnival’s, the Fete and Open Day and later in the year, Graduation. Therefore, it was such a welcome surprise when something else unexpectedly achieved the same effect across the College. It has been wonderful to have the Japanese exchange students and teacher with us for over two weeks and we were sad to see them leave. I was proud of the welcome and hospitality extended to them by our staff and students. We wish them all the best for the future.

Over the next few weeks we ask the whole Quinns Baptist College community to support Artsfest on the 14th August and the Fete and Open Day on the 22nd August.

I am again humbled and yet proud of our students as they so selflessly give of their time and resources for others, in particular, for the disadvantaged children in Bali.

James 1: 27

What God the Father considers to be pure and genuine religion is this: to take care of orphans and widows in their suffering and to keep oneself from being corrupted by the world.

A student economic seminar was attended by Lewis Hutton, Jordyn Dyce, Samuel Smoothy and Tayla Tomamichel-harte on 7 August. This forum was arranged by the Chamber of Business and Industry and was enjoyed by the students. They were given hints on their final exam, had talks on careers they could choose, they were updated on all current economic trends and finally were given a task to complete. Lewis was the speaker for his table and did extremely well.

Congratulations to Danie-Louis Oosthuizen on winning gold at the WA Archery Field State Championships held over the first weekend of August.

We love hearing about students’ achievements. Please email secondarystudents@qbc.wa.edu.au if your child is representing the state or Australia in any event.
This is the first time Quinns Baptist College has been involved in such an extensive exchange program. We feel that the experience has been a great success. The students of both Colleges will have memories that will last a life time.

It was a great privilege to be a part of the inaugural partnership. The College is very grateful to all of the host families for opening their homes to the Japanese students and playing local tour guides. Without the host families support, this experience for all would not have been possible.

A very big thanks to Jane Hoyle who came out of retirement to support the College and be the Teacher to the Japanese Students. All of the students were very grateful for the ongoing encouragement and support of development of their understanding of Australian Culture.

Lastly, to the College Students. We thank you for your incredible hospitality and how you welcomed the Japanese Students into your College and classes.
Every year the AMT welcomes hundreds of thousands of students from more than 40 countries to test their mathematics skills in early August. The AMC is Australia’s original classroom-based mathematics competition with more than 14 million entries since 1978. The AMC awards more than 1000 prizes and 70 medals annually.

Here at QBC we are delighted to continue our involvement in the competition. In 2015 we entered 46 students from yr7-12. While we are still awaiting the results we remain optimistic about student’s potential and hope that we can continue to produce excellent results as we have done over the last two years. Next year, the competition will be held on 28 July 2016. We look forward to see even more of you participate.

This term the English Department held a Public Speaking Competition. It ran over 2 days. We had 5 Participants, of which 3 went through to the Impromptu round, where they were given 10 min to prepare a speech on a topic they had never seen. Lewis Hutton received the first place and a $20 gift voucher to 'The coffee Club' while Isla Mcleod was the runner up, she received a complimentary movie ticket. Thank you to all the participants and judges on a successful event.
Year 12’s Bake Sale

Supporting Children in Africa

Well done to the students of QBC who helped raise $750AUD. Gemma Skillen was able to send this money to an Orphanage housing 46 children in Zimbabwe. It is humbling to realise that with this amount of money from a morning’s cupcake sale managed to feed the entire orphanage for a month.

Thank you for our food

**Quinns Battery Recycling Program**

Last year we launched the used Battery Recycling Program at Quinns. Please place them in the specially decorated bin (see photo) in the LIBRARY. No car or phone batteries please.

If you put the batteries in the general household rubbish bin it goes to landfill and can contain toxic substances which are harmful if released into the environment. Alternatively they may end up at a composting facility and cause contamination. Through our program all metals and components of the batteries are recycled by Auszinc in New South Wales to make street lights, new batteries and steel frames for houses.

Library is open before and after school so bring them in! Let’s see how many kilograms of batteries we can collect this year.

Thanks to Mindarie Regional Council for setting this up and collecting the batteries.

Mums Raising Teenage Boys

However well-prepared mothers are logically, the emotional response to having a boy is often still, ‘Wow! This is unknown territory.’ It is true that for many mothers, the idea of raising a son carried its own set of worries.

As the primary female role model in a boy’s life, mothers play an important role in the development of their son’s identity including their ability to be nurturing. For teenage boys in particular, this on-going relationship with their mothers has long term implications. This in turn effects how they relate to others, particularly to girls and women.

This workshop will discuss:
- The importance of the mother-son relationship
- What boys need from their mums
- Practical ways to improve and maintain a positive and rewarding relationship which could include –
  - Mothets need to have some knowledge of their sons’ world
  - Attachment and boundaries and the consequences
  - Importance of negotiation and its necessary skills
  - Allowing decision making
  - Risk taking and sexuality mutual respect
  - Steps taken to hand over the control to teenagers as they demonstrate responsibility and appropriate self-management skills
  - Need for appropriate knowledge of modern technology in order to make reasonable decisions

For parents of 2 - 12 yo

1-2-3 Magic™ and Emotion Coaching

To help parents manage difficult behaviour in children 2 to 12 yrs

A humorous look at parenting, a serious look at discipline!

To help manage difficult behaviour in children, calmly and effectively. Learn how to use empathy so kids begin to identify their emotions and become better at managing them. This enables them to take more responsibility for their own behaviour.

Behaviour Tonics Rooms, Level 1, 252 Cambridge St, Wembley

Presented over 3 sessions. Cost $180 per person or $340 per couple. 7 to 9.30pm

Tue 18th, 25th Aug & 1st Sept (2 to 12 yrs)
Wed 9th, 16th & 23rd Sept (2 to 5 yrs)

You will learn:

- The two approaches to parenting.
- How to discipline without arguing, yelling or smacking
- How to handle kids testing behaviour.
- How to show empathy while developing emotional intelligence in your child.
- How to teach and encourage positive behaviour, social skills and independance.
- How to strengthen the relationship with your child.
- How to control obnoxious behaviour.

What people are saying...

- An end to the yelling and arguing!
- It saved our lives
- Simple, sane, effective
- What a relief to come across a program that preserves the dignity of the child, maintains the self control of both the parent and the child and is actually easy to remember at those times when memory is the first thing to go
